

TRICARE Reimbursement Manual 6010.55-M, August 2002 Edition

The TRICARE Reimbursement Manual (TRM) is incorporated by reference in the Managed Care Support Services (MCSS) contracts and is the principal vehicle for operating guidelines and instructions. The TRM provides a mechanism for keeping the contracts current by clarifying or modifying existing contractual requirements, adding new specifications/requirements and deleting obsolete information. The TRM, in conjunction with the August 2002 TRICARE Policy Manual (TPM), provides guidance, policy interpretation, and decisions implementing TRICARE, including those policies and procedures applicable to the Civilian Health and Medical Program of the Uniformed Services (CHAMPUS). The TRM contains operational policy necessary to implement Title 32 to the Code of Federal Regulations Part 199 (32 CFR 199). This manual augments the 32 CFR 199 and must be used in conjunction for complete policy information.

This manual is valid for contracts awarded on or after May 1, 2003.

The August 1, 2002 edition of the TRM, 6010.55-M, is available online. This edition supersedes the March 15, 2002 edition. All changes to the March 15, 2002 edition (through Change 37 dated October 22, 2004) have been incorporated.
