

TRICARE Systems Manual 7950.1-M, August 2002 Edition

The TRICARE Systems Manual (TSM) defines the contractor's responsibilities related to automated processing of health care information, reporting and transmission of relevant data between the contractor and the TRICARE Management Activity. The TSM provides the requirements for the Managed Care Support Contractors (MCSCs) to interface with the Defense Enrollment Eligibility Reporting System (DEERS) for performing TRICARE Prime enrollments onto DEERS and obtaining beneficiary eligibility verifications from DEERS. The TSM is incorporated by reference in the Managed Care Support Services (MCSS) contracts and is the principal vehicle for operating guidelines and instructions. The TSM provides a mechanism for keeping the contracts current by clarifying or modifying existing contractual requirements, adding new specifications/requirements and deleting obsolete information.

This manual is valid for contracts awarded on or after May 1, 2003.

The August 1, 2002 edition of the TSM, 7950.1-M, is available online. This edition reissued the February 18, 2000 edition. Also, the August 1, 2002 edition of the TSM replaces the May 1, 1999 edition of the ADP Manual. All changes to the May 1, 1999 edition of the ADP Manual (through Change 51 dated October 22, 2004) have been incorporated.

Change 76, August 31, 2009

Click on the icons below to open the Adobe Reader/Acrobat file.

-  **TSM Master TOC** - View the TSM as it appeared with this change incorporated.
-  **Change Transmittal** - View the change transmittal accompanying this change.
-  **Affected Pages** - View the list of pages that were affected by this change.
-  **Composite PDF** - View the composite PDF which contains all the pages affected by the change along with the necessary front/back pages required for duplex (back-to-back) printing.
-  **Color Legend** - View an explanation of the colors used throughout the manual.

 These changes are available at the TRICARE Manuals web site: <http://manuals.tricare.osd.mil>. The manuals are updated on the web as soon as changes are published.

 Learn how to search the manual on this CD (entire TSM or just the sections that were changed).
